

How to customize C-CDA XML Exporting

07/24/2024 5:10 pm EDT

DrChrono now offers the ability to customize the export option from the Export C-CDA XML button via the Patient List screen.

Note: DrChrono has restricted the ability for users to generate multiple patient export C-CDA XML reports simultaneously.

Navigate to...

1. Patient > Patient List.
2. Click the Export C-CDA XML button.

3. Customize the export based on the radio button filers provided.

Select Export Options and View Scheduled Exports

Which patients?

All Patients Select a patient group to be able to export data for those patients.

Export All Data

Schedule Export Export Now
