

Timezones and DrChrono

07/24/2024 9:41 pm EDT

You can set your timezone in your account by selecting the **Profile** tab under **Account > Provider Settings**.

Select the appropriate timezone from the options.

Scroll down and select **Update Entire Profile**.

Update Entire Profile

Note: Currently, the timezone can only be set at the provider level. All appointments and reminders will be based on the timezone set under the provider's profile.

If you do have different providers and time zones, you can assign each provider a timezone and designate an office for them. For example, below there are 2 offices: 1 Eastern and 1 Mountain.
