How to change my DrChrono login password?

07/24/2024 5:05 pm EDT

DrChrono offers two ways to change your login password.

- Logged Out/Locked Out Users: If you are locked out of your account and need to reset your password, please see our guide here: Forgotten Password: How do I reset my password?
- Logged-In Users: Change your password in your account settings

This guide covers the process of changing your password while logged in to DrChrono. Users can change their password without the need to receive a password reset email.

To do this, access the change password setting in your accounts settings.

1. Open your account settings Account > Provider Settings

Account Marketplace								
ACCOUNT SETTINGS								
User Settings								
Provider Settings								
onpatient Settings								
Account Setup								
Custom Fields								
Copy Dashboard (Beta)								
API								
App Directory								
PRACTICE SETTINGS								
Offices								
Facilities								

Facilities Staff Members Staff Permissions eRx Settings

2. In the **Profile** tab of your account settings, click on the **Change Password** button.

Account Settings

Profile	General Email Med	lical Billing eRx Info	Services	Usage	Sample Data	Security	Patient Payments
	Doctor ID	205858					
	Practice Group ID	239636
