

# How do I set up Two-Factor Authentication (2FA) for a staff member?

07/24/2024 4:25 pm EDT

You can set up a Two-Factor Authentication (2FA) requirement for staff on your account.

As prerequisites to enable 2FA for a staff member, you must have the Manage Accounts permission enabled with your permission set, **and** the staff member for whom you are setting up 2FA must have a cell phone number under their account set up.

The image shows two side-by-side screenshots from a software interface, separated by a large black plus sign. The left screenshot is titled 'Permissions for Sample Admin' and shows a list of permissions. The 'Manage Accounts' permission is checked and highlighted with a red box. The right screenshot is titled 'Edit Office Staff' and shows a form with various fields. The 'Cell phone' field, containing '(303) 555-5555', is highlighted with a red box.

Permission	Checked
Manage Accounts ⓘ	<input checked="" type="checkbox"/>
Show Patient Balance ⓘ	<input checked="" type="checkbox"/>
Show Billing Tab ⓘ	<input checked="" type="checkbox"/>
Show Billing Summary ⓘ	<input checked="" type="checkbox"/>
Add new referring sources ⓘ	<input type="checkbox"/>
Access Institutional Billing ⓘ	<input type="checkbox"/>
Access All Messages for Practice Group ⓘ	<input type="checkbox"/>
Billing Administrator ⓘ	<input type="checkbox"/>
Disable Send to All Patients Option ⓘ	<input type="checkbox"/>
Break the Glass Review ⓘ	<input type="checkbox"/>
Single Patient EHI Export ⓘ	<input type="checkbox"/>
Bulk Patient EHI Export ⓘ	<input type="checkbox"/>

First name Jason  
Last name Sample  
Primary Provider Dr. James Smith  
Email address sample@sample.com  
Username jasonofficemanager  
Home phone ( ) - -  
Cell phone (303) 555-5555  
Send daily billing report?   
DrChrono App Unlock PIN   
Restrict offices?   
Use new dashboard?   
Save staff account

To set up 2FA for a staff member, go to **Account > Staff Members** and select the **Staff** tab. Click **Set Up** next to the staff member to set up 2FA.

### Staff

Login	Name	Email	Primary Provider	Cell	Home	Emer Acs	2-Fac Sec*	
'samplestaff	<b>Sample Staff</b>	samplestaff@sample.com	Dr. James Smith	303-555-5555		✓	Inactive <a href="#">Setup</a>	<a href="#">Edit</a> <a href="#">Delete</a>
jasonofficemanager	<b>Jason Sample</b>	sample@sample.com	Dr. James Smith	303-555-5555		✓	Inactive <a href="#">Setup</a>	<a href="#">Edit</a> <a href="#">Delete</a>

Next, enter your password (not the password of the staff member) and click **Confirm**.

### .drchrono.com says

Two-Factor Authentication is successfully set for the selected staff.

OK

You will see a success message at the top of the screen.

### Authy Confirmation

**Jason Sample's** account will be tied to his or her email and cell phone (only one authy account per email or cell phone).

Email to use: **sample@sample.com**

Cell phone to use: **303-555-5555**

Current password

Click "Confirm" to enable two-factor authentication

Confirm

Under the **2-Fac Sec** column, you will see **Active**.

When the user logs in, they will be prompted to enter a security code. The staff member can click **Request Token via SMS** and the code will be sent to the cell phone listed in the staff profile. Or they can set up the Authy app described in our article [How do I set up 2-factor authentication in my account?](#)
