## What's new?

### Billing and Payments

Summary	Description	Help Center Article
Secondary paper claims are now live through the ePS clearinghouse.	For payers who cannot accept electronic secondary claims, eProvider Solutions (ePS) can now print the claim on paper and mail it to the payer for processing.	<a href="#">eProvider Solutions - Secondary Claims</a>
Two new provider types and taxonomy codes	CMS has created new provider types and taxonomy codes for Marriage and Family Therapist and Mental Health Counselors effective January 1, 2024.	<a href="#">Provider Type and Taxonomy Codes Effective Jan 1, 2024</a>

### Clinical

Summary	Description	Help Center Article
EHI Export - Billing Authorizations Update	The single patient and practice EHI Exports have been updated to include billing authorization data. This is exported as the <code>billing_authorizations.CSV</code> file.	<a href="#">Single Patient and Practice EHI Exports (EHI Export)</a>
EHI Export - Procedures Update	The single patient and practice EHI Exports have been updated to include billing procedure data. This is exported as the <code>Procedures.CSV</code> file. EHI exports are now exported as version 1.2.	<a href="#">Single Patient and Practice EHI Exports (EHI Export)</a>
EHI Export - eRx Prior Authorizations Update	The single patient and practice EHI Exports have been updated to include eRx Prior Authorization data. This file is included in EHI Exports with version 1.2.	<a href="#">Single Patient and Practice EHI Exports (EHI Export)</a>
Include B10 Export Activity in the Clinical Dashboard Audit Log	EHI export data activity will be included in the audit log menu.	<a href="#">The following EHI Data is included in the Audit Log under the Clinical Dashboard:</a> <a href="#">Queuing an export</a> <a href="#">Cancelling an export</a> <a href="#">Downloading an export</a>

### API

Summary	Description	Help Center Article
API - Recurring Appointments	Allows for the creation of recurring appointments via the API.	
API - Zip Code Updates	We have updated our zip code database to resolve an issue that was causing an error for <code>PUT /api/patients</code> API calls for some zip codes.	
API - Add First and Last Name Fields for Staff Users	Staff first and last name have been added to the <code>api/staff</code> endpoint.	

## Resolutions

Product Area	Summary	Description
Clinical	Inability to reorder problem list fix	Users have the ability to re-order the items in the Patient chart without encountering an issue
