What's new?

Clinical

Summary	Description	Help Center Article
EHI Export	The EHI Export product provides self-service access to export data from DrChrono at a practice or patient level in accordance with the 21st Century Cures Act.	EHI Export

API

Summary	Description	Help Center Article
API/Appointments_List Verbose Flag	We have resolved an issue with the `verbose` option for `api/appointments_list` so that it returns more detail including `clinical_note.locked`.	
API Update Appointment Create Audit Log Data	We have updated the Audit Log to include more data when an appointment is created through the API.	

Resolutions

Product Area	Summary	Description
Office Order for Bulk Appointments	We have resolved an issue in which the order of the offices when scheduling bulk appointments did not reflect the order of the offices displayed under the Manage Offices screen.	
Audit Log Opened Appointment Information	We have added more information to the Audit Log when an appointment is opened. The appointment ID is now included when documenting this action.	
Error when Running Advanced Reports	We have resolved an issue that impacted some users who were receiving an error when trying to run Advanced Reports.	
Incorrect Telehealth Exam Rooms with Multiple Telehealth Offices	We have resolved an issue that was impacting some users in which the exam room updates to the appointment were not being saved.
