Resolutions

Summary	Description
Error when Running Advanced Reports	Resolved an issue that impacted some users who were receiving an error when trying to run Advanced Reports.

Coming Soon

Summary	Description

DrChrono has partnered with Iron Bridge to help connect our primary care and immunizing providers to all state immunization registries with one integration!

Customers will be able to easily and quickly connect to their practice's state registry to meet their MIPS requirements and Immunization Registry Reporting measures. This includes the ability to submit applied and historical vaccine data as well as queries for immunization forecasts and histories from the state immunization information system (IIS)

Immunization Registries

The screenshot displays the 'Immunization Record' interface. On the left is a navigation menu with categories like Problem List, Medication List, Send eRx, Allergy List, Drug Interactions, CQMs, Intake Data, Lab Orders, Immunizations (highlighted), Growth Charts, OnPatient Access, Education Resources, and Communication. The main content area shows 'Step 1: Select Vaccines' with tabs for 'Birth - 2 years', '2 - 18 years', 'Adult', and 'Other'. A table lists vaccine schedules with columns for Schedule, Vaccine, Cvx Code, Consent Form, VIS, Administered On, Administered By, and Status. A red arrow points to a 'History & Forecast' button in the top right corner of the table area.

Schedule	Vaccine	Cvx Code	Consent Form	VIS	Administered On	Administered By	Status
Birth	HepB	DTaP/PPV/Hb,HepB			6/9/23 12:19 PM		Complete
1 - 4 Months	HepB						Refuse
2 - 4 Months	HB						Refuse
2 - 4 Months	DTaP						Refuse
2 - 4 Months	POLIO						Refuse
2 - 4 Months	ROTAVIRUS						Refuse
2 - 4 Months	PneumoPCV						Refuse
