Reinitiate enrollment with ePS	If an enrollment request submitted to eProvider Solutions (ePS) is returned for additional information or denied, you can now add/correct the information and reinitiate the request. ePS will see that it is a resubmission of a previous enrollment request and will lessen the chance that it is denied as a duplicate enrollment.	https://support.drchrono.com/hc/en-us/articles/18410102243227-ePS-Reinitiating-an-enrollment-request
