

# How do I use the Billing Log?

07/24/2024 4:30 pm EDT

The DrChrono Billing Log keeps track of all the billing-related actions that happen in your practice. Any time any member of your practice executes an action that affects billing, it will be documented in the billing log.

To access the billing log, mouse over **Billing** in your navigation bar and select **Billing Log**.

## BILLING

Billing Summary

Live Claims Feed

Patient Payments

Day Sheet

Transactions

Remittance Reports

Unmatched ERAs

Insurance Credit Card Payments

Accounts Receivable

Patient Statements

Product/Procedure

Patient Balance Ledger

Fee Schedule

Underpaid Items

Adjustment Master

Sales Tax

**Billing Log**

In your billing log, select between your EDI billing (claims) or your patient payments. You can also narrow your results by searching for a patient name and a date range.

The screenshot shows a navigation bar with three tabs: "Billing Log" (selected), "EDI Billing", and "Patient Payment". Below the tabs is a search interface with a dropdown menu labeled "Patient", two empty input fields for a date range, and a blue "Search" button with a magnifying glass icon.

When you select **Search**, the billing log will populate with actions that fall within your specified parameters. It will show you the date/time the action was taken, the user, and the specifics of the action they took. You can click on the action date to view the page the action was taken on or select the patient to bring up the patient demographics.
