

# Seeing claims that are set to transmit to the clearinghouse

07/24/2024 9:10 pm EDT

You can easily identify which claims are ready to transmit to the clearinghouse in the Live Claims Feed.

Simply select "Other" under Claim Status and "Other" and Billing Status and then click "Update Filter."

The claims that are set to transmit to the clearinghouse on the next file run will show.

The image shows two screenshots of a claims filter interface. The top screenshot shows the 'Billing St' dropdown menu with 'Other' selected, indicated by an orange arrow. The bottom screenshot shows the 'Claim St' dropdown menu with 'Other' selected, also indicated by an orange arrow.
