

Excluding Diagnosis and Billing codes from Clinical Notes

07/24/2024 2:30 pm EDT

DrChrono has a setting that allows users to prevent diagnosis codes and billing codes from showing on clinical notes. When providers share clinical notes with patients, this change allows them to keep the notes simple and patient-friendly.

To enable this feature:

- Login into DrChrono and click on **Account > Provider Settings**.
- Click on the **General** tab and scroll down to the **Clinical Notes** section.
- Add a check in the box next to the option **Hide CPT & ICD on Clinical Notes by Default**.

Clinical Notes ?

Include Practice Official Name	<input type="checkbox"/>	Print practice official name in header. Name can be set in "Medical Billing" Tab
Include Business Logo	<input type="text" value="-----"/>	
Include Patient Chart Photo	<input type="checkbox"/>
