## **How to Create Favorite Lab Panels**

07/24/2024 4:45 pm EDT

If you are a provider who orders the same bundle of tests frequently and is looking for a way to order more efficiently, then you will benefit from creating panels of your favorite tests to make ordering faster.

1. Log in to your DrChrono account and open a patient chart. From the menu bar on the left click on Lab Orders.

**Note:** When you save a lab panel to your favorites, ICD-10 codes are not included. Since each patient's unique ICD-10 codes are pre-populated on the order screen, only panels are included with favorites.

6. The next screen will ask for you to name this panel.
