## ePrescribing with multiple SPI (SureScripts Prescriber ID) locations from the Web

07/24/2024 11:32 pm EDT

For Practice Groups that serve patients in multiple states thus prescribing in multiple states, DrChrono's software allows for the respective controlled substance level (or lack of one) to be reflected accurately to the user and enable a proper ePrescribing workflow.

## Example using the drug Gabapentin

This provider has two (2) registered SPI locations in different states (D.C. and Alabama).

Choose your office location:	
	Clinic One 90001 1ST AVE, Washington, DC, 20000
Medientien	[EPCS] Mark Williams Production LLC 2218 Galleria at Tyler, Riverside, AL, 92503

They want to prescribe Gabapentin to two (2) patients located in different states.
