How to Print Your Patient's Medication List

07/24/2024 4:50 pm EDT

Each patient has an individual medication list which can be printed out if needed.

To print, first navigate to a patient's chart by **searching** for the patient or going to **Patients** > **Patient List** and selecting the patient.

So	Schedule Clinical		nical	Patients Reports	Billin	Billing Account Help 🛊 🗙										Search

3. When you select **Print List**, a PDF of your patient's medication list will be rendered that you can print or download for your own record-keeping needs. To print the PDF, select the printer icon that appears in the upper right-hand corner. Follow the on-screen instructions to print the medication list.
