Submitting a Manual Prior Authorization - CoverMyMeds integration(Web)

07/24/2024 9:26 pm EDT

The ePA workflow is not designed for **non eRx users** as the message to CoverMyMeds require prescriber information.

The option to manually add an ePA is designed for a case where a user that has the ability to obtain the Authorization # and would like to keep the record of the ePA in the DrChrono system.

DrChrono makes it easy to create a manual prior authorization (see steps below).

1. Navigate to the demographics section

2. Click Authorizations tab

3. Click Add Authorization Manually

4. Enter the necessary data > click Add (bottom right)

5. The PA request will appear once added.

Authorization #	Status	Procedure Codes	Start Date	End Date	Specialty	Visits Approved	Visits Remaining	Notes

Prior Authorization (CoverMyMeds)   Add Authorization Manually   Active Archived

Medication	Authorization #	Status	Effective Date	Expiration Date	Date Updated	Action
omeprazole 20 mg oral delayed release capsule	bbe2225a9c5a4186859d386333128c94	Manually Input: Approved	01/12/2024	01/12/2025	04/18/2023	•••
