# Importing QRDA I Files

07/24/2024 6:10 pm EDT

QRDA Import Process

You may need to import a QRDA file to import specific CQM data for a particular patient or group of patients. The QRDA import process is straightforward.

To access, navigate to Patients > Patient List **OR** Clinical > Clinical Quality Measures.

Next, on either screen, click **QRDA I Import**.

OR

3. Click **Choose Files** and Select the QRDA file(s) from your computer. These files will have the extension .XML. Click **Upload** when finished.

4. Select the associated patient(s) or create a new patient for each QRDA file to be imported. Click **Submit** when finished. The files will upload and update the existing patients or create new ones.
