

MIPSPRO by Healthmonix

07/24/2024 6:35 pm EDT

MIPSPRO by Healthmonix has been a CMS-qualified registry since 2009. They validate participant's data based upon years of experience and current reporting rules, ensuring you can report MIPS with confidence.

The integration provides real-time dashboards and timely insight into provider quality performance. Drill down capabilities and advanced analytics provide gap analysis, ability to address those gaps, identification of areas of high quality, and actionable insights for areas needing improvement.
