

# Navigating the MIPS Dashboard

07/24/2024 6:55 pm EDT

The MIPS Dashboard allows customers to track the [MIPS Promoting Interoperability](#) measure for the 2024 reporting period.

- The attestation reporting period is from the start of a year to the last day of the year (ex: 1/1/2024-12/31/24). Eligible Clinicians/Groups will **select a minimum 180-coninguous day reporting period** for the MIPS Promoting Interoperability performance category.
- Current year reporting impacts payments two years out (ex: 2023 reporting, will impact 2025 payment adjustments).
- The MIPS Dashboard is able to support multiple TIN reporting. For more information on setting up multiple TIN's, see [Adding Prescriber Information to an Office](#).

Updates for 2024 include:

- Reporting Period has been changed from 90 continuous days to 180 days. All MIPS reporting clinicians not eligible for a Promoting Interoperability re-weight must start their Promoting Interoperability performance category reporting period by July 4, 2024.
- Starting with the 2023 reporting period, customers must enable the DrChrono FHIR APIs. If your practice already enabled these last year, no additional steps are necessary. If your practice has not enabled the FHIR API's, you must do so prior to starting your reporting period. Please see this article for the steps to complete the FHIR API setup. [Setting Up ConnectEHR for FHIR](#)

## How to view the MIPS Dashboard in DrChrono

You can access your PI dashboard in your DrChrono account by going to [Clinical > MIPS/MACRA](#)

Select the date range, doctors, and offices (ex: 180-Day Period 2024).

Then click **Refresh**.

- The top portion of the dashboard contains information that the customer will use to provide to Centers of Medicare/Medicaid Services (CMS).

# MIPS Dashboard

DrChrono EHR v11.0

CHPL Product Number: 15.02.04.2897.DRCH.11.03.1.220531

CMS EHR Certification ID: 0015E0PHQ1JGR1Q

Track your progress on all criteria with our MIPS Dashboard. No matter where you are in your reporting period, you can easily check on your progress and determine what actions need to be taken to meet the requirements.

**Required Measures**  
 **Incomplete**

**PI Points**  
0 / 100

**PI Score**  
 PI score will not be awarded and the component cannot be submitted until all required measures are complete.

**PI Reporting Date Range**

The reporting date range for PI must be within the 2023 reporting year. The default range is 1/1/2023-12/31/2023, but any 90 day or greater range within the year is valid for 2023.

The selected date range will be applied to all PI measures. The data entered for these measures should only fall within the following date range.

PI Start Date:

PI End Date:
