

# Promoting Interoperability (PI) 2022 Overview

07/24/2024 7:40 pm EDT

For 2022 Promoting Operability reporting, DrChrono provides you with the data you will need in order to report. You can obtain the PI data in DrChrono and enter that information into your Healthmonix MIPSpro dashboard.

**Please note:** DrChrono does not directly export MIPS data to CMS. A 3rd-party registry is needed. MIPS reporting is performed through our partner [Healthmonix](#).

Promoting Interoperability consists of several required objectives and an optional [bonus](#).

The required measures are:

- [Security Risk Analysis](#)
- [High Priority Practices Guide of the Safety Assurances Factors for EHR Resilience \(SAFER\) Guides](#)
- [e-Prescribing](#)
  - [Query of Prescription Drug Monitoring Program \(PDMP\) - Bonus](#)
- [Provide Patients Electronic Access to Their Health Information](#)
- [Immunization Registry Reporting](#)
- [Electronic Case Reporting](#)
- [Health Information Exchange](#)
  - [Support Electronic Referral Loops by Sending Health Information](#)
  - [Support Electronic Referral Loops by Receiving & Incorporating Health Information](#)

OR

- [Health Information Exchange \(HIE\) Bi-Directional Exchange](#)
- 

You can access your PI dashboard in your DrChrono account by going to [Clinical > MIPS/MACRA](#)

FORM TOOLS

- Form Builder
- Library
- Archive
- Form Reorder
- Complete Note Format
- onpatient Forms
- Macro Buttons
- Document Management

CLINICAL

- Clinical Notes
- Audit Log
- CDS Rules
- Inventory Management
- Patient Education Management

MU REPORTING

- Meaningful Use 2014
- Meaningful Use 2015 (Final Revision)

MIPS/MACRA

- Clinical Quality Measures
- CQM Value Set

Select the date range, doctors, and offices. Then click **Refresh**.

### MIPS Dashboard

Track your progress on all criteria with our MIPS Dashboard. No matter where you are in your reporting period, you can easily check on your progress and determine what actions need to be taken to meet the requirements.

Full year 2022  
 Full year 2021  
 Full year 2020  
 Full year 2019  
 Full year 2018  
 Full year 2017  
 90 day period:  
 to   
 (Quality measures will still be calculated using the full year)

Provider  Small, Underserved, or Rural Practice ⓘ  
 Selected 2 doctors ▼

Office  
 Selected 2 offices ▼

Select a provider, an office, the date range and click on refresh above.

The table will populate with the data from your account. You can enter this data into your Healthmonix account.

## Promoting Interoperability

**Promoting Interoperability**

0

Max score: 100

Contributes 25% of the total score

Measures	MeasureID	Met Requirements	Gap	Score
e-Prescribing <a href="#">?</a>	PI_EP_1	0 / 0	0	<a href="#">Required</a> 0 / 10

**Avoid the Penalty**

 Your current MIPS score will result in a -9% payment adjustment.

Select **Data Entry** and then **Go To Page**.

Measures

Data Entry

Requirements

Ready To Submit

With the "Measures" tab completed, you can now enter PI measure data.

**Track Measures**  
*Enter data for selected PI measures and view results*

[Go To Page](#)

**Data Integration**  
*Upload files and review process details*

[Go To Page](#)

Enter your date range for reporting, and click **Update** next to the measure to enter the data. For each measure, you will need to enter the data or attest to the measure.

### Track 2022 PI Measures

Enter data for each measure and review the results.

Measure ID	Measure	Performance	Points Earned/Total	Status	Data Entry
PI_PPHI_1	Security Risk Analysis	0%	Incomplete	Required	<a href="#" style="background-color: #795548; color: white; padding: 2px 5px;">Update</a>
PI_PPHI_2	High Priority Practices Guide of the Safety Assurance Factors for EHR Resilience (SAFER) Guides	0%	Incomplete	Required	<a href="#" style="background-color: #795548; color: white; padding: 2px 5px;">Update</a>
PI_EP_1	e-Prescribing	0%	Incomplete	Required	<a href="#" style="background-color: #795548; color: white; padding: 2px 5px;">Update</a>
PI_EP_2	Query of Prescription Drug Monitoring Program (PDMP)	0%	Incomplete	Required	<a href="#" style="background-color: #795548; color: white; padding: 2px 5px;">Update</a>
PI_HE_1	Support Electronic Referral Loops by Sending Health Information	0%	Incomplete	Required	<a href="#" style="background-color: #795548; color: white; padding: 2px 5px;">Update</a>
PI_HE_4	Support Electronic Referral Loops by Receiving and Reconciling Health Information	0%	Incomplete	Required	<a href="#" style="background-color: #795548; color: white; padding: 2px 5px;">Update</a>

**Required Measures**

⚠ **Incomplete**

**PI Points**

**0 / 100**

**PI Score**

⚠ PI score will not be awarded and the component cannot be submitted until all required measures are complete.

**PI Reporting Date Range**

The reporting date range for PI must be within the 2022 reporting year. The default range is 1/1/2022-12/31/2022, but any 90 day or greater range within the year is valid for 2022.

The selected date range will be applied to all PI measures. The data entered for these measures should only fall within the following date range.

PI Start Date:  

PI End Date:  

[Update](#)

### Optional Bouns Measures

There are 3 optional bonus measures. You can select one measure to report to receive a total of 5 bonus points. Reporting on more than one measure will still result in a total of 5 bonus points. It is not required to report on these measures. Click the measure to learn more.

1. [Public Health Registry Reporting](#)
2. [Syndromic Surveillance Reporting](#)
3. [Clinical Data Registry Reporting](#)
