

How do I port my fax number out of DrChrono?

07/24/2024 4:10 pm EDT

Whether you are porting your fax number from DrChrono to another EHR vendor or to a separate carrier, you will need to work with the new vendor to port your fax number from DrChrono. The new vendor will handle the process of porting your fax number.

You can find your fax number in the message center (

).

The screenshot shows the DrChrono message center interface. At the top, there is a navigation bar with tabs for Schedule, Clinical, Patients, Reports, Billing, Account, and Help. A search bar is located on the right side of the navigation bar. Below the navigation bar, there is a sidebar on the left with categories: ALL MESSAGES (12), Incoming Messages (12), Starred, All Messages (13), FAX (2), Incoming Fax (2), Outgoing Fax, LAB RESULTS, Lab Results, and ERX. The main content area is titled "Incoming Messages" and contains a table of messages. An arrow points to a "Fax number: +1 (301)" label in the top right corner of the message center area.
