

How to save your pen and color selections when using the freedraw tools on the iPad?

07/24/2024 5:20 pm EDT

If you have a certain pen/line type and color preference when using the Freedraw tools on your iPad when using the DrChrono app, you can save those preferences so you have the same selections every time you use the freedraw fields.

1. To save the settings, you need to be in an appointment. Select an appointment and tap **Start Visit**.

The screenshot displays the DrChrono app interface on an iPad. At the top, the status bar shows the time as 9:14 AM on Tuesday, December 5th, with a 100% battery level. The app header includes 'Filters (2)', 'Today', and a search icon. Below the header, a search bar is labeled 'Search Appointment'. A list of appointments is shown, with the selected one for 'Laurie T. Sample' on '12/05/2023 Tue (1)' at '12/05 09:10AM' in 'Exam 1'. The appointment details for Laurie T. Sample (Female | 32 | 12/08/1990) are displayed, including 'Appointment Options', 'Super Bill', and 'Vitals'. A black arrow points to the 'Start Visit' button. The 'Appointment Details' section shows the appointment profile, office (Office 1), provider (Dr. James Smith), and appointment status (None Selected). The 'Billing Details' section shows the payment profile (Insurance) and total payment (\$0.00). The 'Patient Flags' section lists 'Fall Risk' and 'Peanut Allergy'. The 'CDS Matches' section shows 2 matches. The bottom navigation bar includes 'Dashboard', 'EHR', 'Messages' (22), 'Tasks' (14), and 'More'.

2. Select a freedraw field on a form.
