

Entering Vitals on Your iPad

07/24/2024 2:25 pm EDT

You can enter vitals on the iPad from the appointment details page, before/after the visit, or during a visit in the clinical note. If your staff takes vitals before/after the provider sees the patient, they can enter vitals in without hitting **Start Visit**. To do so, they can directly access the vitals page from the patient chart.

The screenshot shows the iPad EHR interface for a patient named Jenny (Jen) Harris. The top navigation bar includes 'Filters', 'Today', a search icon, and a plus sign. Below this is a search bar for appointments. A list of appointments for 08/27/2021 Fri (1) is shown, with the selected appointment for Jenny (Jen) Harris at 08/27 09:53AM, Exam 1. The patient's profile is displayed, including a photo and a note that this is a sample patient. Navigation links for 'Appointment Options', 'Super Bill', and 'Vitals' are visible, with a black arrow pointing to 'Vitals'. A 'Start Visit' button is also present. The main content area is divided into sections: 'Appointment Details' (08/27 09:53AM, 30 minutes), 'Appointment profile' (None Selected), 'Office' (Eastern Time Office), 'Provider' (James Smith), 'Supervising Provider' (None Selected), 'Appointment Status' (None Selected), 'Exam Room' (Exam 1), 'Billing Type' (ICD-10), 'Billing Details' (Payment profile: Insurance, Co-Pay: \$20.00, Billing Status: None Selected, Total Payment: \$0.00), 'Patient Flags (4)' (Auto Accident, Gestational Diabetes, Must lay down for blood draw), and 'CDS Matches (1)'. The bottom dock contains icons for Dashboard, EHR, Messages (6), Tasks (36), and Account.

If the vitals are taken during the charting process, a provider or staff member can access the vitals page at the top of every charting page.
