

Attaching a Lab Result to a Clinical Note on the iPad

07/24/2024 12:29 pm EDT

To attach a lab result to a clinical note on the EHR/EMR app, you can use the free draw tool to browse your patient documents.

First, find and select a free-draw object on a template. You will need to have a free draw field already added to your form from the Form Builder on the web version of DrChrono.

To take a photo using your mobile device, you'll need to have a free draw object on one of the templates you'll be using during your appointment. Find that template and tap on the free draw object.

Free Draw

0 Line

Within the free draw field, on the bottom navigation bar, select the (

)icon to access the camera.

Tapping **History** will allow you to select images, uploaded documents, or previous clinical notes from the patient's documents. Only 1 page can be added to a free draw field. Tap the result to use.
