## Setting Default and Favorite Pharmacies on the iPad

07/24/2024 9:11 pm EDT

On the iPad, you can set pharmacies as default or as a favorite, similar to DrChrono's web EHR.

To set pharmacies as default, first access the new prescription page. Tap on the patient's name and select **Send eRx** on the drop-down menu.

Once you tap the magnifying glass icon, you will be taken to the pharmacy search panel. Enter the pharmacy zip code or name into the search box with any desired search parameters to search for your pharmacy. On the list of pharmacies that appear in the results, tap on the desired pharmacy.

Once you've selected your pharmacy, you will be presented with the pharmacy details. Here you can select either Add To Favorite, Set As Patient Default, or both. When you choose Add to Favorite, the pharmacy will be added to your overall favorites list which applies to all patients. When you select Set as Patient Default, it will be added as the patient's default pharmacy. When finished, tap Select.
