# How do I change an appointment's profile on the iPhone?

07/24/2024 11:44 am EDT

Selecting appointment profiles in the EHR app can be done through your patient's appointment page.

On your patient's chart, tap on the **Appointment Profile** selection.

When you tap on the **Appointment Profile** selection, you may select from your existing appointment profiles. Tap on one of these profiles to change which profile is associated with this appointment.

- Physical Exam
- BackAdjustment
- New Patient Visit
- Dolphin Bite
- New Patient Visit
- Evaluation
- Eye Visit
- Filler
- Flu
- Follow Up
- Glaucoma
- Hand, foot, Mouth
- Hypertension
- Injection
- New Patient Visit
- New Patient Visit

The new profile will replace the previous one. Any setting with the profile will be applied to the appointment.

You can now search for an appointment profile on the iPhone. Tap **Appointment Profile** and the following will appear:

🔍

● Pregnancy Followup Visit

● New Patient Visit

● New Patient Visit 1

● Seasonal Flu

● Followup Visit
