Logging a Phone Call from the iPhone EHR App

07/24/2024 6:35 pm EDT

You can quickly log in phone calls and attach them to the patient's communication log in the iPhone EHR app.

1. Select the appointment.

2. Tap the patient menu icon (=) and select Log Phone Call.

4. The information will now be saved under the patient's chart under the communication section in the **Communication Log** tab through the web version. If you want to view the logged phone call or any past logged phone calls on your mobile device, tap the patient menu icon (

) and select **Communication History**. You can view the individual communication or assign a task by selecting the (

) icon.
