

# Getting Started with Kiosk Mode

07/24/2024 2:55 pm EDT

The DrChrono platform includes the [Patient Check-In App](#), independent of the EHR/EMR app designed to streamline the patient check-in process. The Check-In app includes a Kiosk Mode where your patient may verify their background information, answer questions, and sign consent forms without the supervision of a receptionist or staff member. Using the Kiosk Mode saves your office administrative strain and improves the patient experience.

If you would like more information, please take a look at our [kiosk mode video](#).

To use Kiosk Mode, open your Check-In App and sign in. Tap on the menu button(  ) in the upper right-hand corner and select **Kiosk Mode**.

By default, the home button on your iPad is not disabled. To temporarily disable the home button and prevent your patient from closing the app, [enable guided access](#) in your iPad settings. To begin Kiosk Mode, select **Start Kiosk Mode**.

**This is a Sample Patient**  
In the Main Menu, you can Add Patients, Customize Workflow and turn off Sample Data in Settings.

Start Onboarding

Close Kiosk Mode

 **IMPORTANT**  
Make sure Guided Access is turned on before going into Kiosk Mode. To learn more about Guided Access, tap on [Safeguard Your iPad](#) from the side menu.

Kiosk Mode will allow patients to check themselves in. To exit Kiosk Mode, tap on the Staff Unlock button and enter your username & password.

[Start Kiosk Mode](#)

We recommend a kiosk that has front and rear camera openings. The front camera is required for patient photos and the rear camera is required for insurance card photos. You can also disable those sections in 'Customize Workflow' in the main menu if your kiosk doesn't support those features.

Here are some kiosks with front and rear camera openings:  
[Table Stand 1](#) [Table Stand 2](#) [Floor Stand 1](#) [Floor Stand 2](#) [Floor Stand 3](#)

dr chrono v3.1.5

When you select **Start Kiosk Mode**, you will be directed to the first page of Kiosk Mode. When a patient finishes checking in, the check-in screen will revert to this page.

## Welcome to the Check-In Kiosk

Select your preferred language below and tap the start button

English

Español

Start

An appointment is required for you to check in.  
If you do not have an appointment for today, please talk to the receptionist.

When a patient hits **Start**, they will be required to verify their appointment. They will need to enter their **name** and **date of birth** to begin. The patient will need to have an appointment before using Kiosk Mode and will need to type in an exact name and date of birth match to your EHR to continue.
