INTERNAL: Adding/Editing Staff Members in BTG

07/24/2024 5:40 pm EDT

A new permission called `modify-staff-in-btg` has been added to allow DrChrono employees to modify (create/edit/delete) staff accounts while breaking the glass into another account.

This permission will be implemented as follows:

- Users who are not DrChrono employees will be unaffected.

- DrChrono employees who **do not** have the above permission **will not** be able to break the glass into a customer account and modify that customer's staff accounts. **(The links to add, edit, and delete staff accounts are disabled.)**

- DrChrono employees who **do** have the above permission **will** be able to break the glass into a customer account and modify that customer's staff accounts. **(The links to add, edit, and delete staff accounts will be enabled.)**
