

Setting Up Consultant Access

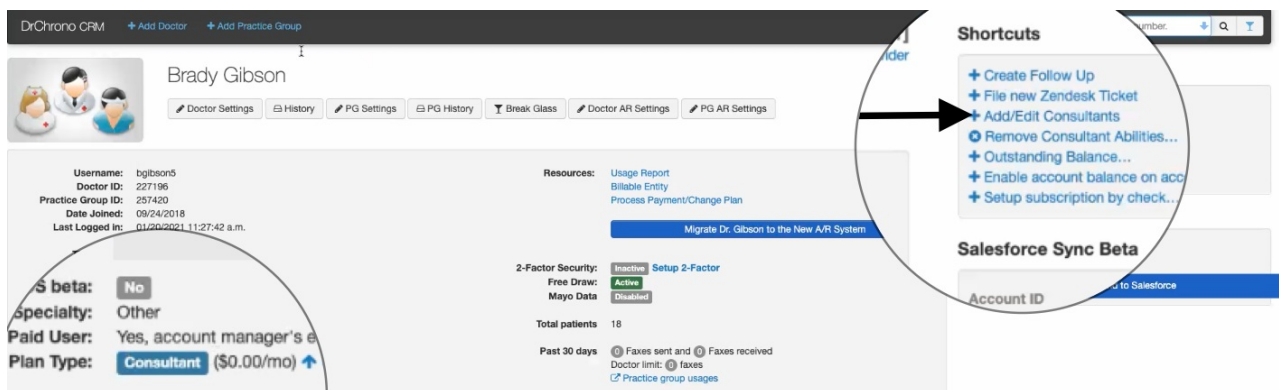

07/24/2024 9:11 pm EDT

Only certain DrChrono team members have the ability to create consultant access. Currently, those team members are:

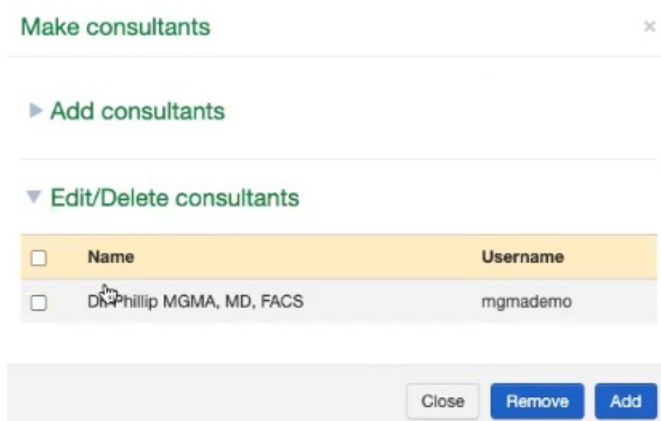

Brady Gibson
Monica Snyder
Ali Anderson
Marjon Harvey

Note: Access account= an account that has been added for a consultant account to access.

1. In the Doctor Settings the account type should be set to **Consultant**. To add an accessed account select **+Add/Edit Consultants**.

2. You can add or remove an accessed account for this consultant

3. Once the consultant access has been added, after logging in, the consultant can go to the Asclepius icon (

) to access the consultant tools.
