Adding Not Automatically Recognized Zip Codes to the System

07/24/2024 12:09 pm EDT

If a zip code does not match with the correct city and state when entering demographics in the patient's chart, we have a method of adding zip codes to the system.

1. Click on the swords (

)menu and select **Quick View**.

2. Click on **Demographics Zip Codes**. Enter the zip code into the search field and **Search.** Click **Update.**

	Schedule	Clinical	Patients	Reports	Billing	Account	Marketplace	Help
